

Exclusive One Step® Stair Tread

One Step® Stair Treads Combine...The Beauty of Wilsonart® Flooring & Convenient One-Piece Construction

- Easy to install, one-piece construction
- Creates a beautifully coordinated transition between the stairway and adjacent floor
- Available in Classic, Estate Plus and Red Label woodgrain designs
- Alabaster or Designer White risers also available

Please note: As some plank designs feature a blocked effect or a two-board visual, the Wilsonart Flooring One Step Stair Tread may contain a wider strip than the matching Wilsonart Flooring design. This subtle variance provides a stair tread with visual balance. One Step Stair Treads for designs featuring Distressed and Hand Scraped textures are offered in a smooth finish of the appropriate sheen to best complement those products.
