

## FINISHING TOUCHES

*Estate Plus and Classic™ trim is available in matching designs.  
DuoLink® trim is available in coordinating designs.*

### End Cap

typically used at exterior doorways to finish the space where laminate flooring ends

### Transition Strip

used to join laminate flooring to other flooring materials of varying heights

### T-Expansion

used in doorways or thresholds to join two areas of laminate flooring

### Acoustic Molding

used as a transition strip in conjunction with the Acoustic Cushion

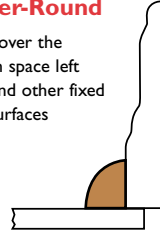

### Base Board

used to add a custom finish along any wall

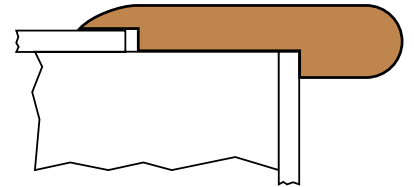

### Quarter-Round

used to cover the expansion space left at walls and other fixed vertical surfaces

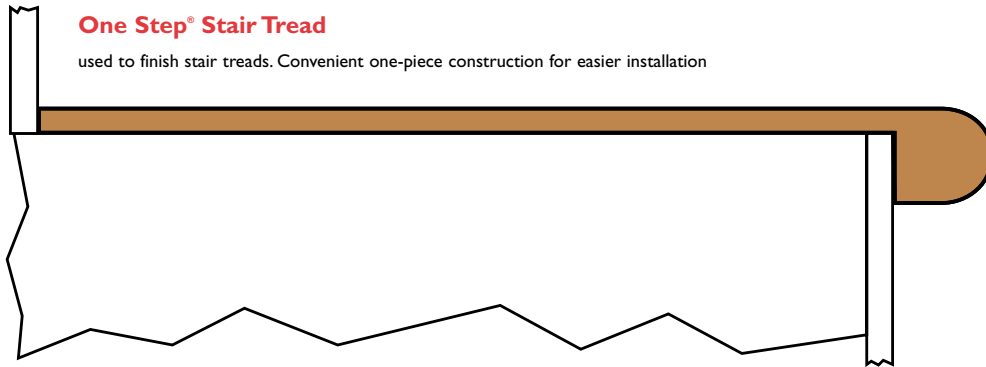

### Overlap Step Nose (OLS)

used to finish stair edges or step down applications

### One Step® Stair Tread

used to finish stair treads. Convenient one-piece construction for easier installation

Wilsonart® Flooring
