

# A Complete Flooring System...

## Underlayment Options

*Wilsonart offers a variety of padding systems to match your specific application needs*

### Wilsonart Commercial Cushion

serves as a moisture barrier while providing superior noise reduction properties. The cushion's special antimicrobial content also helps inhibit the growth of odor-causing bacteria and mold.

### Wilsonart 2-In-1 Pad

combines a foam cushion with a polyethylene moisture barrier and is used over hard subfloors to absorb sound and increase comfort.

### Wilsonart Acoustic Cushion

is a premium pad that offers enhanced sound-deadening and thermal insulation properties.

## Trim Options

*Red Label, Estate Plus and Classic trim is available in matching designs. DuoLink trim is available in coordinating designs.*

### End Cap

typically used at exterior doorways to finish the space where laminate flooring ends

### Transition Strip

used to join laminate flooring to other flooring materials of varying heights

### T-Expansion

used in doorways or thresholds to join two areas of laminate flooring

### Acoustic Molding

used as a transition strip in conjunction with the .120" thick Wilsonart Acoustic Cushion

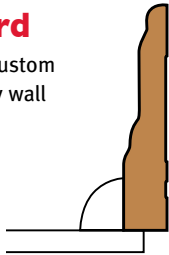

### Overlap Step Nose (OLS)

used to finish stair edges or step down applications

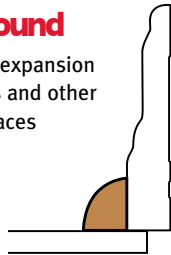

### Base Board

used to add a custom finish along any wall

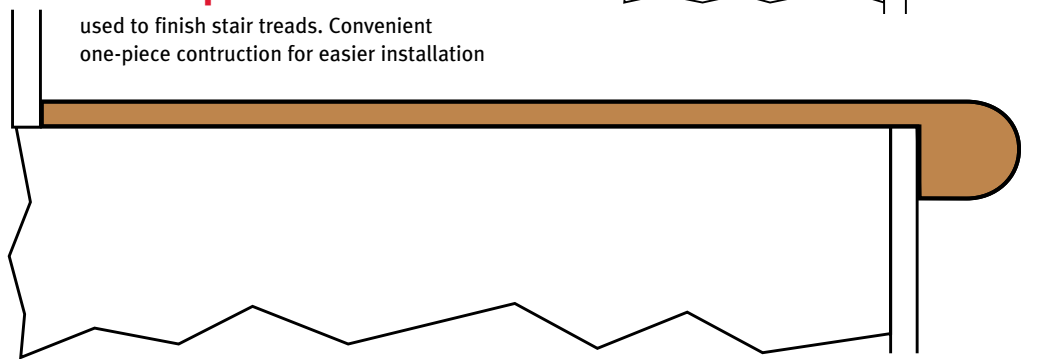

### Quarter-Round

used to cover the expansion space left at walls and other fixed vertical surfaces

### One Step® Stair Tread

used to finish stair treads. Convenient one-piece construction for easier installation

## Installation & Cleaning

*Everything you need to install and keep Wilsonart Flooring looking great!*

### Wilsonart Flooring Cleaner

Available as a ready-to-use 32-ounce spray or in a 1-quart concentrate, Wilsonart Flooring Cleaner's no rinse formula cleans grease and heavy surface soil without streaking while eliminating dulling residue and build-up.

### Wilsonart DIY Installation Kit

Convenient installation kit contains everything you need to start laying Wilsonart Flooring. Kit includes pull bar, tapping block, 30 spacers and trial size cleaner.

### Wilsonart BlueFusion™ Adhesive

Advanced Type II PVA adhesive provides an instant industrial-strength bond while minimizing clean-up. BlueFusion also eliminates the need to acclimate flooring in most applications.
